ON THE GROUND.

Cleveland and Boies Men at Chicago.

Actively Engaged in Preliminary Missionary Work.

Whitney Squarely Says He Will Not Be a Candidate.

Senator Vest Abandons Cleveland's Cause as Hopeless—The Fusion Idea Grows.

By Telegraph to the Times.

Chicago, June 15.—[By the Associated Press.] The Democratic National Convention is showing the first signs of becoming a thing of life. By tomorrow it will begin to grow until by next Tuesday the biggest party will have been formed.

Boies' managers from Iowa started a boom for their favorite son early this morning by establishing headquarters at the Palmer House, and were kept busy during the day in sending out documents showing the great popularity of Boies. The Cleveland men were not to be outdone by the Hawkeyes and they established similar headquarters at the Grand Pacific, and letters and circulars are being sent to weak delegates who, it is supposed, can be won over if Cleveland is shown to be the strongest candidate. The Hill men appear to be on a still hunt. Only one Hillite is on the ground, but this individual has sufficient enthusiasm for half a dozen, and is loudly proclaiming the virtues of his favorite.

The sub-committee on arrangements of the National Committee is already preparing for the accommodation and seating of the delegates. Members of the National Committee will begin arriving tomorrow, and on Friday they will be a full meeting of the Committee on Arrangements. Three places are to be filled on the National Committee, two caused by death and one by resignation. The late Senator Sherman, of Ohio, was one of the three. John S. Barbour of Virginia has died, while J. A. Estlin of Georgia has resigned.

The so-called "Big Four," Richard Croker, Boss McLaughlin, Edward Murphy and Lieut. Gov. Shepley, will arrive tomorrow. The probabilities are that the entire opposition to Cleveland will be combined and directed by the Hill men, who, when convinced that there is no possible chance for their man, will center upon a dark horse. There are strong indications that the Cleveland opposition will assist Dan Voorhees of Indiana in making trouble for Gov. Gray in his probable capacity of Vice-President at the meeting.

Cleveland, being a great pillar of strength in the Cleveland campaign, the position which the Illinois delegation will occupy is still uncertain. Since the State convention it has come to public knowledge that the friends of Col. William R. Morrison by skillful management have succeeded in securing control of the delegation, and the question now is whether Cleveland, Palmer or Morrison is to have their support deferred.

J. J. McComb of Tacoma reached here today. Although not a delegate he is the advance representative of the Washington delegation. He says the Washington, Montana and Coast States, so far as he knows, are for Cleveland.

John C. Kays, a delegate from California, does not know the views of his colleagues, but thinks Cleveland will be nominated at the convention.

At the Boies headquarters in the Palmer House a conspicuous figure is L. M. Morton, delegate-at-large from Iowa. "We expect Gov. Boies will have 75 or 100 votes on the first ballot," said he. "I am sure of it, because we have been in correspondence with some of the delegates and had friendly letters from many. Boies will gain votes rapidly after a test vote is taken."

A rumor was current this afternoon that Senator Vest of Missouri had abandoned the Cleveland forces, to which it was understood he belonged. Mr. Vest was seen by an Associated Press reporter this evening, just before he took the train for the East, and when asked to define his position he said: "I am a Democrat and want to see my party nominated a Democrat who can be elected. I am apprehensive that Cleveland cannot carry the State of New York. This unfortunate light in our party in that State makes me fear we will lose it unless we go outside the State for a candidate. I speak now because I think the time has come when the Democrats in this country ought to ask an expression of opinion from every Democrat. My feeling toward Cleveland has never changed and I regard him now with the same respect, confidence and friendship as I have ever felt, but I doubt his power to carry his State."

Mr. Vest said the people of Missouri wanted Cleveland nominated and the delegation would vote solidly for him in the convention.

OHIO DEMOCRATS.

Platform Adopted—Ticket Nominated—Delegates to Chicago Chosen.

COLEMAN (O.) June 15.—[By the Associated Press.] The Democratic National Convention was called to order by Chairman J. A. Norton of the State Central Committee. Mention in his address of the names of Cleveland, Hill, Gorman, Whitney and Campbell was greeted with applause, which showed that all have followers in the convention.

Hon. J. E. Neal was made temporary chairman. In his speech accepting he predicted the defeat of Harrison and Reid. From the foundation of the Government up to the year 1873, he said, the Democratic party when in power took exacting care of the coinage of money. There were no fluctuations in the value of the monetary currency. "My fellow-citizens," said he, "it is left for the Democracy to restore the equality between the metals, and my word for it, the coming national convention will meet the silver question with courage and justice and evolve a plan that

will establish the equality between gold and silver, so much desired, and make a dollar in name a dollar in fact."

The platform as finally reported declared in favor of a test of revenue only; denounces the McKinley law; declares that the high tariffs imposed by certain European nations on American grain and meat are in retaliation for our high tariff, and demands the immediate modification of the tariff by Congress in order to secure the free admission of our agricultural products abroad. The silver plank is as follows:

The Democratic party has always favored the use of both gold and silver as money, and restored to the people the silver dollar of our fathers, which the Republicans in Congress had demonetized in 1873. Denouncing the Sherman act of 1890 as false in principle and dangerous in practice, and believing that both gold and silver should circulate as money with the parity maintained and with equal rights and equal value, we submit to the wisdom of the Democratic party about to assemble in national convention to declare a method by which that end may be reached.

The platform declares that the last national Republican victory was achieved by the expenditure of millions of dollars in pivotal States and not as the result of a majority in the electoral college.

The following State ticket was nominated: Secretary of State, W. A. Taylor; Supreme Judge, long term, John P. Briggs; Supreme Judge, short term, Thomas Beer; Clerk of Supreme Court, W. H. Wolfe.

The following were placed in nomination for delegates-at-large: A. W. Thurman, L. T. Neal, Calvin S. Brice, Robert B. Lee, J. A. McMahon, James E. Campbell. An effort was made to elect the late Senator Sherman, but it was objected to, and the motion was withdrawn.

On the first ballot, Brice, Campbell and McMahon were declared nominated, and a second ballot was ordered for the fourth man.

Thurman and McMahon withdrew, and on the second ballot Lee was nominated for fourth delegate-at-large.

WHITNEY QUITS THE RACE.

The ex-Secretary announces that he is not a candidate.

LOWELL (Mass.) June 15.—[By the Associated Press.] The Evening Star today received the following autograph letter from ex-Secretary of the Navy Whitney:

Dear Sir: Many thanks for your kind thoughts of me and your flattering words, but I must say to you in all seriousness that I am not a candidate, but have no intention of being so. I understand I do not wish the nomination. No lieutenant of Cleveland's, particularly one who so well known to the masses, should be such a candidate. If I thought necessary, that would not take it I tendered me. Yours truly, W. C. WHITNEY.

THE FUSION IDEA.

It seems to be gaining strength among Kansas farmers.

WICHITA (Kan.) June 15.—[By the Associated Press.] None of the leaders here to attend the State Convention of the Farmers' Alliance are willing to express an opinion as to the outcome of the convention. From a careful canvass it seems probable that W. D. Vinson will be nominated for Governor, though P. P. Elder and Atty.-Gen. Ives are making an aggressive canvass. It is not unlikely, however, that all prominent candidates will be dropped and a dark horse put forward. The fusion idea seems to be gaining ground. It looks as if John A. Eaton or David Overmeyer, liberal Democrats, would be nominated for Congressmen-at-large, though at a caucus of delegates favoring fusion this morning Overmeyer was thrown over and it was decided to center the fusion strength on Eaton. It is doubtful if Eaton will be able to rally much strength as he is a candidate for Governor in 1888, telegraphs that he will accept a nomination by acclamation for Associate Justice of the Supreme Court. He probably will be nominated.

WICHITA (Kan.) June 15.—The People's party State Convention convened today. The usual committees were appointed. The fusionists appear to be in control. A motion to dispense with the travel together. The movement was carried and S. D. Lielewellyn was nominated on second ballot. Lielewellyn came from Iowa. He served two terms in the Iowa Legislature as a Republican.

Politics at the Capital.

WASHINGTON, June 15.—Many signs of the coming exodus to Chicago were visible about the Capitol today. Senators and Representatives were selecting trains and arranging little parties to travel together. The movement will begin in force tomorrow, when Senators Carlisle, Faulkner, Mills, Pascoe, Vilas, Lrby, Jones of Arkansas, Ransom, Brice and Gorman will start for the wigwag on the lake. Later in the week members of the House will follow.

Senator Hill says that unless something unexpected arises he will not go to the Chicago convention.

German Lutheran Vote in Illinois.

CHICAGO, June 15.—The Republican State Central Committee is in session here for the purpose of choosing a successor to Long Jones, who has been chairman so many years, but declines to serve longer. Penitentiary Commissioner Wright of Woodstock stirred up things before the meeting by announcing that he had made a canvass, and finds that the German Lutherans are going almost solidly for the Democratic ticket on account of the school question, and that it will take the hardest fighting to get them in line. He estimates their strength at 30,000.

Hill's Cohorts on Route.

PITTSBURGH, June 15.—Richard Croker, accompanied by Lieut. Gov. Sheehan and others, passed through tonight before the meeting by announcing that he had made a canvass, and finds that the German Lutherans are going almost solidly for the Democratic ticket on account of the school question, and that it will take the hardest fighting to get them in line. He estimates their strength at 30,000.

Illinois Colored Champions.

ALBANY (N.Y.) June 15.—W. H. Johnson, editor of the Calcium Light (colored men's paper), who leaves tomorrow for Chicago in the interests of Senator Hill, announces that an Afro-American convention will meet at Chicago next Tuesday, with headquarters at the Keystone Hotel.

MANY KILLED.

Two Score of Workmen Dashed to Death.

By the Fall of an Unfinished Bridge Over the Licking River.

Eighteen Dead Bodies Recovered—Thirteen Men Still Missing.

The Contractors in Charge of the Work Go Down With Their Men—Rescuers Busy—Scenes Among the Dying.

By Telegraph to the Times.

CINCINNATI, June 15.—[By the Associated Press.] A casualty such as throws a pall of sorrow over the community and sends a thrill of horror through the civilized world happened on the Licking River, between Newport and Covington, Ky., this forenoon. A wagon and a street railway bridge was in the course of construction between the two cities. The contractors for the iron work were the firm of Baird Bros. of Pittsburgh, consisting of Andrew and Robert Baird, and they both went down to death with their two score or more of workmen.

The bridge was a strong wrought-iron structure. The stone piers on each side of the river were finished. The iron work of the approaches is very massive. The span between the two piers is about 380 feet. The height of the truss which was to form the bridge span between the piers was sixty-five feet above the water. False work in piling and timbers had been constructed in the river. On top of this false work the construction of the iron truss had been begun midway between the two piers, and the work was pushed from the middle both ways. Five sections of the ponderous ironwork had been constructed. On the top of this was an apparatus known to bridge men as the "traveler," which is used to extend the structure from the ends. The "traveler" was full of men at 10:30 this morning, and some of them were near the top, nearly 100 feet above the waters of the Licking River. The timbers of the false work were beams about ten inches square, old and weather-beaten, and had evidently been used before. It was the mass of heavy timbers, suddenly the overcast of tons that overmatched them, wrought ruin and gathered an awful harvest for death. Thirty-six men were in the "traveler" at 10:30 a. m., when

AN AWFUL CRASH CAME.

No one can tell how many were working below. The crash came like a bolt from heaven. Suddenly the overcast beams of pine broke and crashed into the river below a mass of ruins, under which a score of lives went out. Debris filled the deep stream from bank to bank. People filled both shores, and the stream was soon full of skulls and the work of rescuing lives began with-out a directing hand. This work was kept up all day and is still going on tonight. At the hour of the accident there were few other workmen on the bridge near the scene, which leaves the few survivors among the victims as the only ones to tell the story.

Bruce Thomas was working on the bridge. He says: "The first thing I knew I was falling. I heard no cracking timbers, no outcry; I only knew I was going down. I had hardly time to think when I found myself on the bottom of the river about twenty feet from shore. I only got bruised on the legs. I saw several others who escaped, but don't know their names."

At a cottage on Thornton street, Newport, not 200 yards from the bridge, lay the dead bodies of John R. Roby and his brother, William Roby. Mrs. Catherine Baer, the occupant of the house, was the mother-in-law of John Roby, who leaves a widow and two children. The two brothers were taken there to die. Never in houses of royalty was there more real mourning than in that house tonight. John died first. His dying brother said to the weeping widow: "Don't cry, Anna; John will get well. When I told you that John was dead, he said: 'Then I want to die too.' Those were his last words."

In the same house was C. H. Fetters of Irion, O. His back was injured and he sank crushed. The said Thomas Baer, William Hartner, John O'Neil, Charles Scammon, Robert Baird, Thomas Downing, Dick Spooner, Fred Brent, Charles Duvenick, James Johnson, George Burge, N. W. Burton, Dennis Harlow, B. P. Phelps, G. W. Plankback, B. Thomas, Richard Jennings. The following are missing: Frank Muir, Charles Tarr, William Barton, William Albis, Harry Kramer, G. E. Sheehan, B. Krause, Ed. Nolan, Ed. Sullivan, Dan Brinkley, Pat Murray, J. J. Murray, Albert Heininger.

The fatally injured are: Andrew Baird, William Wilson, John Phillips, Elmer Bauer, W. E. Brobe, Henry Osburn.

Three others were slightly injured elsewhere, there was enough from this vicinity to lend personal pathos to the scene, as relatives recognized bodies now and again as they were recovered. The recovery of the bodies was slow work from among the river timbers and twisted iron, which sometimes crushed out the lives of the victims and again held them comparatively unhurt below the surface of the water and drowned them. Houses near by, some with dead owners in them, were thrown open for the care of the wounded.

The cause of the disaster is supposed to be the weakening of the wooden false-work. The high water had washed out the earth supports. Charles Wilkerson, whose home is in Louisville, Ky., was working on the engine on the Newport approach and was the first one to go to the rescue. He says the timbers of the false-work buckled down

POINTS OF THE MORNING'S NEWS.

BY TELEGRAPH.

By the collapse of a bridge between Covington and Newport, Ky., a large number of workmen were killed. A cyclone swept along the St. Lawrence River, causing great havoc. Gov. Markham has been petitioned to call an extra session of the Legislature, but will probably decline. The California Delegates to the Chicago Convention have started for the East. The Grand Parlor of Native Daughters of the Golden West continues in Session at Sacramento. Father Mullinger, the faith cure priest, is dead. Rev. Dr. Briggs has made another speech in favor of revision. The San Joaquin grand jury has ignored the charge against Tillie Ludwig, who shot Brakenmoe at Clark. The first class from Stanford University has been graduated. Ex-Secretary Whitney has written a letter stating that he will not be a candidate for the Presidency.

IN AND ABOUT THE CITY.

The alleged murder of Mrs. McGoldrick has surrendered to the Sheriff. An important Supreme Court decision has been received in this city. Desperate attempt of an insane man to hang himself. The would-be train wrecker acquitted. The first game of the Los Angeles-Oakland series won by the home team by a score of 14 to 5. Meeting of the Fourth of July Committee.

stream and everything went down in a heap.

WHAT ONE RESCUER DID.

Wilkerson saved the lives of many wounded and then went diving for the dead. The first dead man he got was James J. Johnson of Havre de Grace, Md. This man had a brother injured at Canova, W. Va., who has become insane from injuries received while working for Baird Bros. and had said Baird Bros. and was here on the bridge looking up testimony among the men on the works. The next man Wilkerson recovered by diving was Andrew Baird, one of the contractors, who arrived here this morning and was on the bridge with his brother inspecting the work. The Baird brothers were engaged on the great bridge at Memphis and have had much experience in bridge building.

The wounded are scattered all over the three cities, Cincinnati, Covington and Newport, and the surgical attendance was prompt, efficient and amply sufficient.

There were sixty-eight persons on and about the bridge when it fell. The following is a revised list of the killed and missing: Killed—C. D. Champoux, Thomas Down, an unknown about 40 years old, K. H. Roby, Elmer Barrio, William Alois, G. W. Pfaffenbach, Dick Gorman, Edward Sullivan, James Johnson, Ennis Harlow, E. A. Nolan, Charles Stall, Charles Tarr, William Burton, Patrick Murray, John Adams, Frank Adams, Robert Baird, Andrew Baird, Charles Gresham.

Missing—Martin Luther, George Burge, N. Burton, William Wessling, Fred Brant, Dick Adams.

At Canova, W. Va., where the victims were probably fatally injured and nineteen others are more or less injured.

RIVERS AND HARBORS.

Senate and House far apart as to their improvement.

WASHINGTON, June 15.—[By the Associated Press.] Conferees on the River and Harbor Appropriation Bill, after being in conference four days, failed to reach an agreement and decided to report the fact to the two houses and ask for instructions. The conferees, it is learned, were able to agree upon nearly all points of difference, including the 25 per cent. cut in last year's appropriation for contract projects, but disagreed hopelessly upon the two new Oregon and Washington projects. They are both Senate amendments. One appropriates \$187,500 for the improvement of the Columbia at Three Mile Rapids, including the construction of a boat railroad around the Dalles with authority to make a contract for the completion of the work, the total cost being \$2,072,856. The other amendment appropriates \$200,000 for the construction of a ship canal connecting Lakes Union and Washington with the Puget Sound.

FATHER MOLLINGER.

Death of the Celebrated Faith-Cure Catholic Priest.

PITTSBURGH, June 15.—Father Mollinger, the renowned faith-cure priest, died this afternoon from the effects of a surgical operation for rupture of the stomach.

Father Mollinger was stricken last Monday while ministering to thousands of pilgrims that had come from all parts of the country to be healed. He gradually grew worse and today an operation was performed for rupture of the stomach. Instead of relieving him, he began to sink rapidly and died in a few hours. When the tidings became known to the people in the vicinity of the church, excitement was intense. Hundreds of invalids who were boarding near the church in hopes of being healed, were stricken with terror and many were heard to exclaim that there was now no hope for their recovery. Father Mollinger was over 70 years of age, and was reputed to be worth \$2,000,000 or \$3,000,000. The fame of his miracles is world wide.

The Homeopaths.

WASHINGTON, June 15.—At this morning's session of the American Institute of Homeopathy, reports of the Board of Censors, Auditing Committee, Committee on Medical Education and Committee on Medical Legislation were read and accepted. Chicago was unanimously chosen as the next place of meeting and the time was left to the Executive Committee. The election of officers resulted as follows: President, Dr. James H. Morel, of Pittsburgh; treasurer, E. M. Kellogg, of New York city; general secretary, Dr. Pemberton Dudley, of Philadelphia. Adjourned until tomorrow.

Baccarat Cumming Again.

LOSDON, June 15.—Sir William Gordon Cumming, the principal in the infamous baccarat scandal, will stand for a seat in the House of Commons in the Elgin borough at the approaching elections.

IT LEFT RUIN.

A Cyclone's Ravages Along the St. Lawrence.

It Leaves Death and Destruction Everywhere in Its Track.

Crowded Schoolhouses Wrecked and Several Children Killed.

Reports of Loss of Life and Damage to Property in a Large Number of Places in the Destroyed Path.

By Telegraph to the Times.

MONTREAL, June 15.—[By the Associated Press.] A cyclone struck the little village of Ste. Rose, a fashionable resort near here, yesterday, and carried everything before it. A little schoolhouse on the outskirts of the village was torn to pieces in an instant. In the schoolhouses, twenty children were being taught by Miss La Caise. The children were scattered like leaves in all directions, and the teacher was so badly injured that her recovery is doubtful.

Out of twenty-five children, two were dead when found, one died shortly afterward, twelve are seriously wounded and the remainder are more or less injured.

The killed are: Wilfred Oulmet, Julia Jolly and Stanislaus Druiden.

The bodies of the children were horribly disfigured. The force of the cyclone was terrible, most of the damage being done in the open country. The barns of John Thomas and Alphonse Kimpton were blown away. Mrs. Kimpton had her collar bone broken and an eight-months-old baby's skull was crushed.

The scene at the schoolhouse after the wreck was full of agony. The living children were found huddled together in mortal terror, the wounded groaning and shrieking. The lamentations of parents mingled with those of the maimed and helpless children. In addition to the loss of life various amounts of property in the adjacent country were destroyed by the storm.

At Ste. Therese a schoolhouse in which were forty children was blown down. Two children were killed and many injured.

Reports of damage by the storm are received from many places. The storm on the south side of the St. Lawrence River was extensive, and the damage resulting will be heavy. It is said two children were killed and six houses blown down near Upton.

At Lacoste a most terrific thunderstorm, accompanied by heavy down-fall of rain, took place. It was the worst storm ever known in the vicinity. Crops were damaged to a great extent. Many fine farms came within the storm center, which filled the houses, and crops were beaten into the ground. Fruit trees were badly damaged. In Wilson's paper mill over 400 panes of glass were broken out of 600, while proportionate damage was done to lights in every building in the neighborhood.

The storm played great havoc at Charles, where a large number of buildings of all kinds were blown down. The storm swept furiously along the south side of the St. Lawrence from Longue to Boucherville. Contrester and Barnes, where some heavy damage was done. Numerous outbuildings and residences in Granton and Adamson townships were wrecked.

At Kennebec the high school was badly damaged and one of the teachers injured. Other buildings were also destroyed. The log residence of Louis Aubrey was picked up bodily and carried over 100 feet, Aubrey being badly injured. A schoolhouse at the point was also badly damaged. The school was in session at the time, and great excitement prevailed among the children when the howling wind tore portions of the building away and the structure rocked as if it would tumble from its foundations. Luckily no serious injury was done to any of the pupils.

THE SILVER CONFERENCE.

Italy's Reasons for Taking Part—Much Depends on England.

ROME, June 15.—The Minister of the Treasury announced in the Senate today that the Italian government has decided to take part in the international monetary conference in order to defend Italy's interests, without any idea of disturbing the Latin Union, in which, however, France is more interested than Italy.

Pans, June 15.—William Seligman, the well-known Franco-American banker, was today an Associated Press correspondent today: "The question of bi-metalism must be dealt with sooner or later. I consider the convocation of a monetary conference to be a step in the right direction. English action is the key to the present silver problem. It may be safely said that if England declares for bi-metalism the other powers will follow suit and if she declares against it the other nations will not be disposed to interfere with the status quo."

Redmond's Mission in New York.

NEW YORK, June 15.—The Academy of Music was tastefully decorated to-night with the green flag of Ireland and Stars and Stripes, the occasion being a reception tendered John E. Redmond, member of Parliament and Parnellite leader. Judge Wanklyn and Lyna called the meeting to order. A tempest of cheers greeted Redmond as he stepped forward. He began his address with a glowing tribute to Parnell.

At the conclusion of Redmond's address a collection amounting to between \$4000 and \$5000 was taken and the following resolution adopted:

Resolved, that the proposals for peace offered by Redmond and Harrington afford fair means of stopping the strife without injuring the interests of either section; that the earnest and substantial support of Wanklyn and Lyna are hereby pledged to the independent Irish party in defense of our national principles against internal defection and outside aggression.

AGAIN THE ANGELS WON.

Another "Cinch" Taken on That First Place.

The Unfortunate Colonels Brought Their Ill-luck With Them.

Defeated by the Very Significant Score of 14 to 5.

A Ragged Game as a Whole, Enlivened by Some Sensational Plays on Both Sides—Circles Catches and Heavy Stick Work.

Standing of the Clubs.

Club	W.	L.	P.	Per Ct.
Los Angeles	54	34	22	.607
San Jose	50	38	24	.568
San Francisco	50	39	23	.562
Oakland	54	38	23	.586

For a couple of hours yesterday afternoon a fair-sized crowd was out at Athletic Club Park cheering the Angels on toward the pennant. Uncle Henry Harris was also giving them a boost at the other end of the circuit by taking a fall out of San Jose, which was duly appreciated.

Those who did not witness yesterday's game will be apt to think they did not miss much when they look at the score this morning, but that's just where they are mistaken. Although the contest was one-sided from the start the whole exhibition was brightened up with sensational plays of different kinds which would have entertained an exacting Boston crowd of cranks.

Col. T. Pilgrim Robinson, so-called because he is a good deal of a wanderer, was not on hand at the slaughter, but his trusty lieutenant, the faithful "Tip," as well as Capt. Fred Carroll were both interested spectators as well as contributing members in the general result. "Tip" made a couple of large juicy errors at most inappropriate times and Carroll's muff cost a run.

The new Colonel is Joseph Shea, who had little chance to distinguish himself. He will be a good man, however, if given a show and if Milt Whitehead's work at second is a criterion of his worth for that place, he will easily be a star. The way he climbed into the air for one of Hassam's line drives and dragged it down with his left hand was a caution.

"Gentle Willie" Hassam set a pace at short which would puzzle the best of them to maintain. No less than two apparently safe drives were headed off by him and the runner was out at first, and he also figured in a couple of circus catches.

"Kid" Hulen did the "starring" by capturing a couple of foul flies, one of them back against the grand stand and another at the plate, just as it came off Louie Bals's fingers. Both of them were heartily cheered. Glenavlin's chances at second were all difficult and his stick work was a feature. Stafford's assist was a brainy play, when he headed off a man at third by a lightning throw. Tredway didn't have a bat to suit him, but made a good capture in the field.

Newman was behind the bat and his catching was not only of a high order, but his throwing was scarcely less surpassed on these grounds. He handed them down to second in splendid shape, and although he is not able to run, his stick work was a big factor in the victory.

German was wild and ineffectual. Four men scored the first inning on one hit and a couple of sacrifices, and the fact that only one of the fourteen runs was earned shows how costly the errors were. He could not get the ball across the plate at critical times and forced in two or three runs with the deadly base on balls.

Little Louie Bals was in for Los Angeles and had good speed and control. He allowed the Colonels but eight safe ones, and kept them pretty well scattered at that.

In the second inning the Oaklanders counted their first two. McCauley gave Carroll a life, and doubles by Manassas and Wilson followed. In the next two bases on balls, two singles and a double resulted in three more, but after that Bals allowed nothing but ciphers, while the Angels piled up fourteen runs by swatting the ball often and walking to first at intervals. Following are the figures:

LOS ANGELES.	AB.	R.	H.	SR.	PO.	A.	E.
Wright, cf.	5	2	2	1	0	0	0

Wild pitches—By German 2.
Time of game—Four, 45 minutes.
Umpire—McDonald.
Official scorer—J. Will Lyons.

DIAMOND DEBT.

Roach and Horner will do the box work today.

The game will be called at 8:30 o'clock this afternoon.

"Pop" McCauley stole from first around home yesterday, and Wright also took a couple.

McDonald was given a good send-off when he stepped out on the grounds yesterday afternoon.

Reports of the games elsewhere are given in the telegraphic columns.

Children Cry for Pitcher's Castoria.

Dr. Wong Him

Chinese physician and surgeon, has resided in Los Angeles seventeen (17) years. His reputation as a thorough physician has been established and appreciated by many. His large practice is sufficient proof of his ability and honesty.

The doctor graduated in the foremost colleges, also practiced in the largest hospitals of Canton, China. The doctor speaks Spanish fluently.

Office: New number, 636, old number, 417, upper Main St. P. O. box 564, station C.

Great Reductions in Rates

Hotel del Coronado

America's Peerless Seaside Resort

San Diego Bay is the new rendezvous for the White Squadron, thus making Coronado the most attractive resort in California.

The New Salt Water Swimming Tanks

Under a glass roof, are the finest and most elegant in California, having large sunny dressing-rooms and every convenience attached. Constant streams of hot and cold salt water flowing into the tanks. These baths are very strengthening.

On a splendid, hard, sandy beach, with more regular breakers, water ten degrees warmer than at Santa Cruz and no undertow.

Barracuda and Spanish Mackerel fishing begins about April 1st. It is the finest on the coast. Tourists should remember that the Hotel del Coronado is open all the year, and that after the other winter resorts close instead of going north they will find the most delightful weather and every attraction at Coronado.

ROUND-TRIP TICKETS From Los Angeles, Pasadena, Pomona, San Bernardino, Colton, Riverside, Redlands, Orange, Anaheim and Santa Ana, all \$3.10, including one week's board in \$3.00 or \$3.50 room. Privilege longer stay at \$2.50 per day.

T. D. YEOMANS, Agent, Los Angeles, 124 N. Spring St. Tickets for sale at Santa Fe office, 124 N. Spring St., or at First St. Depot, at all other points. Local R. R. Agents. Pacific Mail Steamship Company, four times monthly, and tourists can go east via San Francisco or Panama.

E. S. BARCOCK, Manager Hotel del Coronado.

Main Office, 135 West First Street. Works, 715-719 North Main Street.

We call attention to our reduced family price list for family washing. Why not patronize white labor when you can have your work done as cheap at the Steam Laundry, where the method of washing, rinsing and ironing is perfectly neat and clean and much better? We employ expert silk and flannel scourer and cleaner. It will pay you to try us in this department. We do a general laundry business. Our wagons call and deliver in any part of the city. Invitation extended to any one to visit our laundry and see how we do our work.

One of the Switchmen

At the corner of Spring and First streets made the statement that seventy cars passed the corner each hour in the day. This makes seven hundred cars for the ten hours. This includes horse, cable and electric cars going each way. By a count made by the elevator boy some time ago we found that over ten thousand round trips were made in thirty days to our second floor, over three hundred trips each day. We are near a busy corner doing a very busy business. Since the counts were made the business is nearly if not quite one-half more. Our second floor does a big business. Nearly one-third of our entire business is done on this floor. Cloaks and Suits. You know all about the biggest Cloak Department, Corset Department, selling Royal Worcester Corsets, Shoes, Reynolds Bros. well-known makes. Millinery, the biggest department in the city and doing the very largest business. E. Bitterick & Co.'s reliable patterns, the very best in the world. All these help swell the trade. You would be surprised to see the crowds on our second floor at times. Today you can buy the 85-cent quality all-wool Henriettas for 55 cents per yard. Today you can see the greatest exhibition of all the new things in Laces ever made in the city. Most Popular Goods on sale today. Today we offer a line of Black Sateen waists for 65 cents cash; regular dollar quality. Gaining trade and lots of it. Business one-third larger than one year ago. We expect to double business this fall. Any article you buy in this house, if not perfectly satisfactory in every way, bring them back and get your money. We close Saturday nights.

RAILROAD AFFAIRS.

Santa Monica Will Welcome the New Road.

The Ballona Branch Officially Declared to Be Closed.

Another Unprofitable Road That is to Be Abandoned.

Excursion to Courthouse Mass-Meeting—Some Items About the Ticket-Brokers—Local and Personal Notes.

The opening of the Santa Fe's new line to the ocean will be formally celebrated at Santa Monica Saturday. The citizens of that place are preparing entertainment for about 250 invited guests, who will leave Los Angeles at 11 a. m. Saturday on a special placed at their disposal by the railroad company. The list of invitations will be limited strictly to the number specified by the hosts at Santa Monica.

HE GOT THE STOP-OVER.
The San Diego Union says: "One of the best stories of the season is told by J. P. Nash, one of the misologists at the Hotel del Coronado. He recently took a trip to Los Angeles and while there had occasion to go to Colton. Not being anxious to swell the quarterly dividends of the Santa Fe, he purchased a ticket of a scalper at Los Angeles that had been issued at Comstock, Ind., to a man named W. F. Gates and boarded the train, which was in charge of Conductor Fillmore. When the ticket-taker reached for Nash's ticket he was requested to issue a stop-over at Pomona. When he saw Gates' name upon it, he sized up his man and ran the customary bluff by saying, 'That is not your name!' Nash replied that it was and to prove his statement, looked around to find some one to also certify to that fact. Seeing his Irish friend Pat Riley, a section foreman on the Southern Pacific Railroad, who was also well known to the conductor, Nash asked him if his name was not Gates, to which Mr. Riley promptly replied, 'Of course it is, Mr. Nash.' The laugh that followed was too much for the dignity of the conductor, who issued the desired 'stop-over' without further ado.

SCRAP WRAU.
General Manager K. H. Wade, of the Southern California lines, has returned from his trip to San Francisco. Assigned C. V. Pauly, of the San Diego cable railway, has called in all passes issued by the former management.

Supt. Burkhalter of the Southern Pacific, Santa Barbara division, was in Los Angeles yesterday to see the ball game.

Stockholders of the Santa Ana, Orange and Tustin road want to tear up and abandon that property as its operation is unprofitable.

Superintendent Beamer and Trainmaster Hibbard, of the Southern California line, are at Los Angeles headquarters, planning a new time card.

C. J. Lehmann has returned from the meeting of the Ticket Broker's Association at Denver, where he was elected vice-president of the organization.

The Santa Fe passenger agents are ticketing numerous parties and individuals to Bear Valley and other mountain resorts, of which there are several reached by the lines of that road.

Ticket Broker Duffin of Los Angeles wanted to open an office in San Francisco, but the association which met at Denver, refused to permit him to enter the competitive field in that city.

General Freight and Passenger Agent S. B. Hyman, of the Santa Fe's Southern California lines, returned yesterday from Chicago, where he attended the Transcontinental Association meeting.

Whenever the new San Bernardino County Courthouse may be built, if at all, the Santa Fe Railroad will make some profit out of the agitation against the bonding question by carrying trainloads of people to the protesting mass-meetings at excursion rates. More than 600 passengers were carried to the Ontario meeting.

An official circular giving a formal announcement of the opening of the Santa Fe's new line to Santa Monica has been issued. The new stations are Santa Monica and Santa Monica, and C. W. Feits has been appointed agent in charge of both. The Ballona branch from Mesmer to Port Ballona is closed and train service is discontinued thereon.

Sickness Among Children.
Especially infants, is prevalent at all times, but is largely avoided by giving proper nourishment and wholesome food. The most successful and reliable of all is the Gail Borden "Eagle" Brand Condensed Milk. Your grocer and druggist keep it.

The Rogers Inquest.

Yesterday afternoon Coroner Weldon held an inquest on the body of William Rogers, the old man who was run into by a moving train near the San Fernando street depot some days ago, and who died at his home in East Los Angeles from the shock Tuesday evening. The old man received a few bruises and it was not believed that he was seriously injured. The testimony went to show that the old man, who is quite deaf, was warned to leave the track, and he did so, but just as the train was backing up he stepped back to the track and got so close that the car struck him and knocked him down. The jury blamed the trainmen for not stopping the train.

Just 24.

In just 24 hours J. V. R. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. Written, by permission, to W. H. Marshall, Brunswick House, S. F. Geo. A. Werner, 621 California St. S. F. Mrs. C. Martin, 125 Kearny St. S. F., and many others who have been cured from constipation and sick headaches. (I came to California in 1872 and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles.) Ask for

People's Store!

June 16, 1892.

We invite you to call this day and inspect the handsomest line of Dress Goods, and the cheapest for the money that you have ever seen sold anywhere in the known world, quality and price considered. What we offer today is the choicest of fabrics, and the price that we quote means a determined effort to secure the Dress Goods trade of this city.

DRESS GOODS.

19c—100 pieces to select from—Half Wool Challies—in the handsomest printings known to fine art. This has always been considered a staple commodity at 25c per yard.

35c—All-wool French Challies in stripes and figures. The quality is as fine as those we sell at 60c, but the printings are not equal to them. A great value.

49c—All-wool French Challies made by Schreier, Rot & Cie, France. These are the finest goods that are imported to this country. As sold before, the quality is the best, but the printings not quite as handsome.

60c—All-wool French Challies in three-toned printings, the newest, handsomest and finest goods of the class imported in the United States at any price whatsoever. Come up like hand painted.

50c—Silk Stripes Nun's Cloth. These goods should be retailed at \$1.25 per yard in order to make a living profit. They are all-wool and the very finest texture, with a variegated silk stripe running through them. Must have cost 90c per yard to create. They contain all the new shades of tans, beiges, modes and grays.

65c—40-inch wide, all wool, of the finest texture, satin striped, Bedford weave effects. You would consider these a desirable value at \$1 per yard, for in the ordinary course of trade it could not be sold at the price. Superfine and summer weight.

BLACK GOODS.

35c—Black Mohairs, fully 58 inches wide, absolutely fast in color and worth 60c per yard. A dust shedding material, and the most adaptable for Southern California summers.

50c—Black Sicilians 40 inches wide, a quality that were a pity to sell under 75c per yard. This quality can never be replaced for the money.

75c—Black Brilliantines, 44 inches wide, silk finished, exquisite luster, better goods than we have ever sold under \$1.25. We have never been able to offer the public such values in this class of materials.

SILKS.

50c—Printed China Silks that you can buy anywhere else at about 55c per yard, but nowhere under that price. They are exclusive patterns confined to our house. This is the greatest value in silk that anybody ever offered to the public.

98c—Printed China Silks, 24 inches wide, in the very handsomest printings, variegated colors on cream, gray, tan, brown, beige and mode grounds, quality sublime, as cheap at 98c as the others are at 50c, and we have sold these 50c goods to the best trade in Los Angeles.

\$1.25—Handsome novelty Silks in black and white chain weaves, black and colored Jacquard weaves—goods that would be considered by the best class of trade special value at \$2 per yard.

WASH FABRICS.

It is remarked by every one who enters our store that our line of wash fabrics is the largest, handsomest, and it goes as a matter of course—the cheapest to be found in this city and we admit—in this State.

19c—Ginghams—a new crinkled fabric—a yard wide in stripes and plaids.

20c—Robert Martin's very best quality of Scotch Ginghams—100 different pieces in as many different patterns—fully 3/2 inches wide, and the finest cloth turned from a Scotch loom. Guaranteed to be the genuine goods and sold heretofore as high as 50c a yard.

17 1/2c—Printed Canton Crepes. These are black grounds with colored figures printed in three or four different colorings, and the finest of materials. The goods would be considered cheap at 35c a yard. They are the most exquisite production of printing that we have ever seen.

12 1/2c—Jacquard work and satin-stripe Ginghams—as fine a cloth as you ever handled. These goods would sell at 45c a yard. We shall try to put a window of them in tomorrow.

19c—Cotton Challies—the printings on these goods are beautiful. The material is as fine as can be created in a cotton fabric, and at our price they are just half value. Ask to see them even if you have no idea of buying, as they are works of art.

10c—Black and white Sateens worth 20c a yard. When you see these goods and they do not appeal to you as being half price, why then we are not in it.

7c—Although we have given you the preceding items as special, we shall add this to crown them all. These are a heavy printed Bedford cord in cream grounds. They are worth 15c per yard. You are buying them at fifty cents on the dollar.

5c—American Standard Indigo Blue Prints—cost 6c per yard to land in Los Angeles—a quality that is usually sold at 8 1/2c. We are going to let out a couple of cases today at 5c.

8 1/2c—Fruit of Lonsdale Muslin 4-4 bleached—the genuine article.

A Monster Saturday Night Sale!

MILLINERY.

15c—Children's trimmed sailor hats. We sold them all season as our leader at 25c.

25c—Ladies' lace straw Hats and Shapes. We sold them all season as our leader at 45c.
